AdvancedEDI

Going Paperless The Right Way!

INCREASE PRODUCTIVITY, EFFICIENCY & EMPLOYEE MORALE

That's right! Start utilizing that processor hidden inside your PC to help your office increase productivity and minimize your staff's work load. How do we accomplish this? We meet with your staff and learn how they perform the work, recommend and/or change processes along with showing you how to get the most out of your computer.

By improving these processes and functions you help with freeing up your staff's time to take care of other tasks around the office.

BUSINESS AUTOMATION

We review and learn your business processes and then provide you with a roadmap on how to perform these processes in a more efficient and productive way. Our goal is to help eliminate any unnecessary steps so that your staff can produce more in a day and possibly take on other responsibilities.

Let's face it, we all want to do more in less time. We keep this in mind while treating your business processes as though they were our own.

CONSULTING SERVICES IN:

- Electronic Data Interchange (HIPAA, 837, 835, 270, 271, 276 & 277)
- Process Improvement
- Business Automation
- Networking
- Software Recommendations
- Department Process Assessment
- Database Administration
- Data Manipulation & Reporting

Need A Service That Is Not Listed?

Call & Ask Us!

Consulting solutions that work for your business.

IT'S TIME WE MADE THAT PROCESSOR INSIDE YOUR PC WORK FOR YOU!!!

Give us the opportunity to show you how
Advanced EDI can help!

flexible solutions for your ever changing business needs

INCREASE PRODUCTIVITY

We evaluate your business, departments & staff on how the work is being performed. We then draw you a road map / blue print on what procedural changes can be made to address the areas that show signs of inefficiencies. By taking this approach we empower your company to produce more work in less time.

INCREASE EMPLOYEE MORAL

YES, that is correct! There are many employees that feel stressed and unhappy at work due to the amount of work and the time it takes to complete it. LET US HELP. While observing your staff at work, we solicit feedback from them on what they feel would make the process easier. Who better to get feedback on the work being produced than from the producer themselves!

We will show you ways of producing more work by changing or simplifying the process. This will eliminate the need to hire more employees to assist with what can otherwise be automated.

SOFTWARE RECOMMENDATIONS

We can help with that too. Looking to implement new software, modify existing systems, or subject matter experts that can help? Let us help you meet those needs.

ELECTRONIC DATA INTERCHANGE

We assist Health plans, IPA's, MSO's, Physician Offices & Billing Offices in increasing the receipt and submission of encounter data. We assist Physician offices with claims and AR turn-around time.

CUSTOM SOLUTIONS

No two companies are ever a like. This is why we review your current business practices and create a custom blueprint - workflow and identify the changes that should be made to address those inefficiencies.

DATA PROCESSING & REPORTING

We receive your data in any format and make the required changes necessary to submit data in proprietary formats and/or generate reports with a more professional look.
